# TECH FOUNDER ESSENTIALS 2025

The Leadership Programme For Budding  
Entrepreneurs in Tech

AN INITIATIVE BY  
Trusnetix Technologies Private Limited

SINCE 2019

# About Trusnetix

Trusnetix Technologies distinguishes itself in the region by leveraging cutting-edge technologies such as Server Side Rendering, Native Compilation, and conducting meticulous Vulnerability Analysis & Penetration Testing. These advanced methodologies have enabled us to surpass other companies in the industry.

Trusnetix Technologies is an IT Services Company established in Guwahati, Assam. Our expertise extends to crafting software solutions for numerous companies and startups, empowering them to fortify their digital defences. Moreover, our cutting-edge Mapping API solution designed to enhance the functionality of businesses and applications alike is used by Startups needing a fast, affordable mapping solution.

Distinguishing ourselves further, Trusnetix Technologies takes pride in pioneering the first-ever Professional Course in Cybersecurity within the North East India region. Through this groundbreaking initiative, we have propelled numerous students towards prosperous and rewarding careers in this increasingly sought-after domain.

PROJECT EMPOWERED TITANS 2025

# What is it about?

For Indian students, the gap between academic learning and industry needs has never been more evident. Many Computer Science graduates face challenges in securing meaningful positions because traditional education often falls short in equipping them with the skills demanded by top tech companies, inspite of teachers' selfless hard work. Our mission is clear: to bridge this gap and prepare students to excel in a competitive global market.

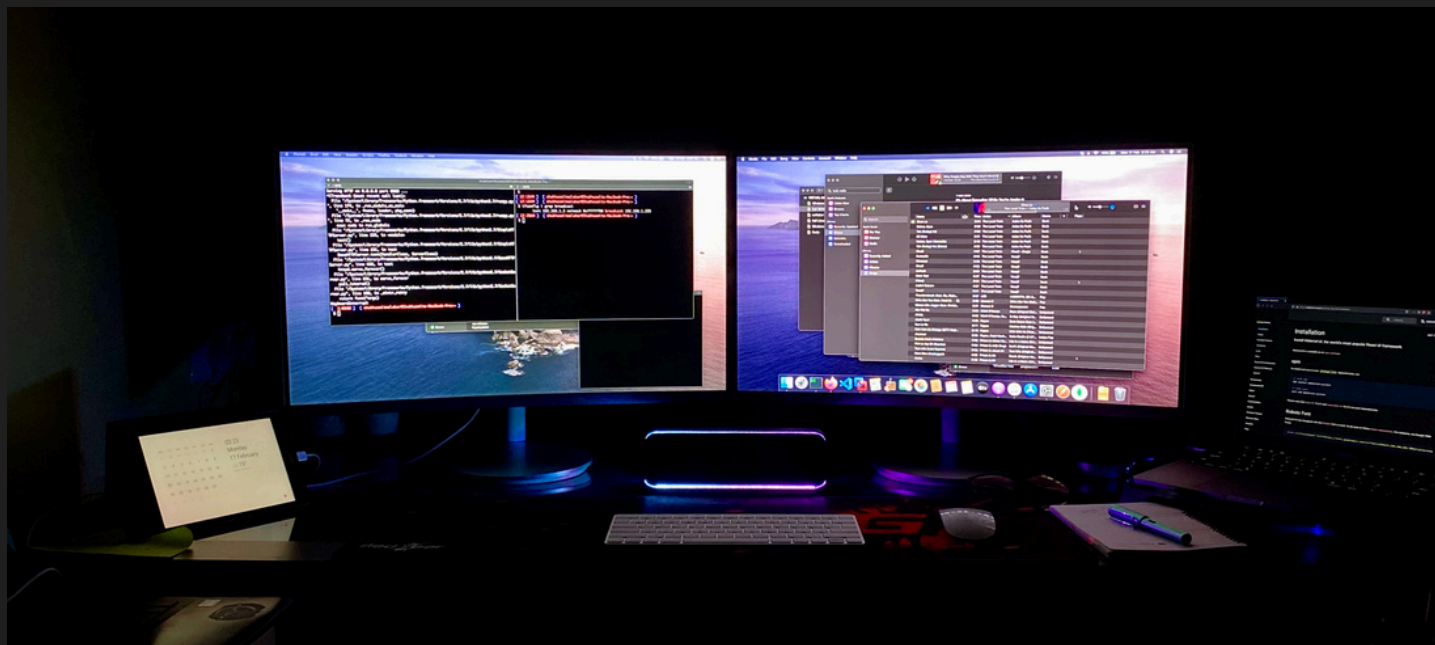

This Leadership Programme is designed to address these critical gaps by providing a comprehensive, hands-on education that combines advanced technical training with essential soft skills. Our curriculum spans cutting-edge technologies such as Flutter, React, DevOps, and Cyber Security, paired with leadership and communication training that empowers students to thrive in any professional setting.

## DURATION & TIMING

40 Hours | 4 Hours per week | 3 Months Internship | Completely Online

# What will you learn?

## FLUTTER & REACT

Build Next-Gen Web & Mobile Apps with the latest tech

## CYBER SECURITY & ETHICAL HACKING

Understand the techniques of ethical hacking to identify vulnerabilities and strengthen system security

## AI & MACHINE LEARNING

Create smart systems quickly that learn and adapt to new data using GenAI & AI/ML

## AND MUCH MORE

Learn how you can be **self sufficient**, perhaps the most important skill in the industry

## DEVOPS

Enhance collaboration, automating workflows, and ensuring seamless software delivery through cutting-edge DevOps practices

Students will have 4 hours of classes each week

03

## ONLINE MODE

Available online for flexible learning options

## FEES

04

The total fees for the training is ₹49,990 only. Internship is free. Best performing students will get stipend as well

# Who will teach you?

---

*WE BELIEVE THAT TRUE EXPERTISE COMES FROM HANDS-ON EXPERIENCE AND DIRECT INDUSTRY INVOLVEMENT. UNLIKE TRADITIONAL TRAINING COMPANIES THAT RELY ON JUST TRAINERS, OUR TEAM CONSISTS OF ACTIVE INDUSTRY EXPERTS WHO BRING REAL-WORLD INSIGHTS AND PRACTICAL KNOWLEDGE TO THE TABLE. YOU ARE NOT JUST GETTING A TOP-TIER EDUCATION; YOU ARE GAINING ACCESS TO THE MINDS OF THOSE WHO SHAPE THE TECH INDUSTRY. OUR UNIQUE APPROACH ENSURES THAT YOU ARE EQUIPPED WITH THE SKILLS, KNOWLEDGE, AND CONNECTIONS TO THRIVE IN A COMPETITIVE LANDSCAPE.*

*OUR STUDENTS ARE GREAT. OUR STUDENTS ARE SMART. WITH JUST A LITTLE MOTIVATION & THE ABILITY TO SEIZE THE OPPORTUNITY, THEY WILL ALSO BE UNSTOPPABLE.*
